

**Local  
Briefs**

**Leaf pickups in  
Painesville Twp.**

Painesville Township will be providing two curbside leaf pickups.

The first is Saturday and the second is Dec. 10, beginning at 7:30 a.m.

All leaves must be collected in paper yard-waste disposal bags, which are available at most hardware stores, and placed curbside by 7:30 a.m.

**Water service may  
be interrupted**

Lake County Department of Utilities will be replacing a main line valve on Aquarius Parkway beginning at 6 a.m. Sunday.

Because of this valve replacement, some residents could be without water service for about eight hours. Streets involved will be Kennedy Parkway and Lost Nation Road between Courtland Drive and Ninadell Avenue. Affected complexes include Two Town Creek, The Hamlets and Parkway Apartments.

It is recommended that affected residents have water in containers available for household and personal use. Upon restoration of service, water might be discolored.

A water use advisory will be in effect until the bacteriological tests confirm that the water is safe to consume. This could take several days.

For questions, call the department service center at 440-918-3416 or the Aquarius Water Treatment Plant after hours at 440-918-3420.
